Why We Are the Best

Many professionals are quite surprised, when taking their licensing exam, at how much they don't know. It's not that they don't know their trade, but the exams are mostly about government regulations and standards.

You just don't pick up these things in the field, you have to wade through a long list of books to locate the required information. Anyone who has taken these exams can tell you... **it's no walk in the park!**

Building Trades Education Services has over twenty-five years' experience preparing contractors to take and **PASS** the State exams. Our instructors sit for the exams on a regular basis. They know what to teach and how to teach it. Our study aids are constantly updated, so you can be sure of receiving the most current information. BTES courses offer:

- The most course time for the money.
- Comprehensive workbooks included with each course.
- Limited course enrollment providing individual attention.
- Free Homework Hotline assistance.
- Includes our complete course in Business and Financial Management, a State testing requirement.
- When you take one of BTES's courses you **will pass**, and that's guaranteed!

BUILDING TRADES EDUCATION SERVICE

Guarantee

Instructor recommendation---

You can attend our classes as many times as you like for a whole year. Take your trade class and pass that test, then take your business class and pass that test. Don't try to absorb both classes at one time.
